Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

2. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns,"

"The disclosure defined by this invention," "The disclosure describes," etc.

- 3. The abstract of the disclosure is objected to because it uses the terms "disclosed" and "said". Correction is required. See MPEP § 608.01(b).
- 4. The following guidelines illustrate the preferred layout for the specification of a utility application. These guidelines are suggested for the applicant's use.

Application/Control Number: 10/531,683 Page 3

Art Unit: 3612

Arrangement of the Specification

As provided in 37 CFR 1.77(b), the specification of a utility application should include the following sections in order. Each of the lettered items should appear in upper case, without underlining or bold type, as a section heading. If no text follows the section heading, the phrase

"Not Applicable" should follow the section heading:

(a) TITLE OF THE INVENTION.

- (b) CROSS-REFERENCE TO RELATED APPLICATIONS.
- (c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT.
- (d) THE NAMES OF THE PARTIES TO A JOINT RESEARCH AGREEMENT
- (e) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A

 COMPACT DISC (See 37 CFR 1.52(e)(5) and MPEP 608.05. Computer program
 listings (37 CFR 1.96(c)), "Sequence Listings" (37 CFR 1.821(c)), and tables
 having more than 50 pages of text are permitted to be submitted on compact
 discs.) or

REFERENCE TO A "MICROFICHE APPENDIX" (See MPEP § 608.05(a).

"Microfiche Appendices" were accepted by the Office until March 1, 2001.)

- (f) BACKGROUND OF THE INVENTION.
 - (1) Field of the Invention.

Application/Control Number: 10/531,683 Page 4

Art Unit: 3612

(2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.

- (g) BRIEF SUMMARY OF THE INVENTION.
- (h) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).
- (i) DETAILED DESCRIPTION OF THE INVENTION.
- (i) CLAIM OR CLAIMS (commencing on a separate sheet).
- (k) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).
- (1) SEQUENCE LISTING (See MPEP § 2424 and 37 CFR 1.821-1.825. A "Sequence Listing" is required on paper if the application discloses a nucleotide or amino acid sequence as defined in 37 CFR 1.821(a) and if the required "Sequence Listing" is not submitted as an electronic document on compact disc).
- 5. The disclosure is objected to because of the following informalities:

The section headings listed above should be added to the specification.

The references to the claims on page 1 and 2 should be removed.

On page 10, in line 11, a German phrase still appears in the specification.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3612

7. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the upper roof part" in line 6. There is insufficient antecedent basis for this limitation in the claim.

In claim 1, lines 7 and 8, the phrase "moved like a sunroof" is indefinite. Sunroofs can move in a variety of different ways so it is unclear exactly what movement is claimed by the phrase.

The dependency of claim 2 is unclear. It appears to be dependent upon claim 1 but claims much of the same structure.

Claim 5 recites the limitation "the join of the middle section with the automobile body" in lines 2 and 3. There is insufficient antecedent basis for this limitation in the claim.

Claim 5 recites the limitation "the joint of the middle section with the upper roof part" in lines 3 and 4. There is insufficient antecedent basis for this limitation in the claim.

Claim 5 recites the limitation "the planes of the respective joints of the main post" in lines 5 and 6. There is insufficient antecedent basis for this limitation in the claim.

Claim 6 recites the limitation "the sealing edge of the rear roof part" in line 6. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

8. Claims 1-10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wilms et al., Perakis, De Gaillard, Schutt et al., Murkett et al., Klein et al. '447, German Publication 3616017, European Publication 1332902, and Klein et al. '798 disclose convertible vehicle roofs.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason S. Morrow whose telephone number is (571) 272-6663. The examiner can normally be reached on Monday-Friday, 8:00a.m.-4:30p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Dayoan can be reached on (571) 272-6659. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
